EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John D. Gugliotta on March 21, 2005.

The application has been amended as follows:

Cancel claims 5 and 9.

REMARKS: It was agreed to cancel claims 5 and 9. Claim 5 is cancelled because the claimed switch positioned on the lateral side of the engine housing would not be structurally compatible with base claim 3 which claims the switch being positioned on a front handle. These alternative switch positions are further supported by the specification. Claim 9 is cancelled because it would be redundant in claiming the switch position on the front handle as already claimed in base claim 3.

2. The following is an examiner's statement of reasons for allowance: Claims 3 and 6-8 are allowable because none of the prior art of record suggests a switch being positioned on a front handle of the chainsaw, the switch operatively coupled with a

power source and the illumination means mounted on a front of the engine housing and aimed at the bar and cutting area.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alan Cariaso whose telephone number is (571) 272-2366. The examiner can normally be reached on 9-5:30 M-F.
